Developing Information Literacy and Digital Literacy Skills

BISSTO contains material designed to improve Information and Digital Literacy skills for University of Bolton students and staff. We would like to develop it further - with your help.

What do you need to support your student's Information and Digital Literacy?
How can we expand the existing sections shown on this poster or develop new sections?

Please give us your ideas/requirements on a post-it below. Include your email if you wish to discuss anything with us.

If you would prefer to email us please do so to: d.grundy@bolton.ac.uk or m.e.barden@bolton.ac.uk
